Sir:

The above-identified Applicant submits herewith references, which may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 C.F.R. § 1.56. Form PTO-1449, attached hereto, lists the references of which Applicant is aware, and which may be material to the examination of this application.

While the information cited in this Information Disclosure Statement may be "material" pursuant to 37 C.F.R. § 1.56, the filing of these references should not be construed to be an admission that any patent, publication or other information referred to herein is, or is considered to be, either "prior art" for this invention or otherwise material to the patentability of this invention as defined in 37 C.F.R. § 1.56(b).

In accordance with 37 C.F.R. § 1.97(g), the filing of this Information Disclosure Statement shall not be construed as a representation that a search has been made or that no other material information as defined in 37 C.F.R. § 1.56(b) exists.

The references cited in this information disclosure statement were cited in an International Search Report. Please note that we were unable to obtain a copy of Germany publication no. 2004-177214. We believe that the U.S. Patent and Trademark Office (PTO) should have a copy of this because the search report was issued by the U.S. PTO as the office Search Authority for the application. A copy will be submitted in a supplemental Information Disclosure Statement once obtained.

It is believed that this Information Disclosure Statement is being filed within three (3) months of the filing date of the patent application pursuant to 37 C.F.R. §1.97(b)(1) and therefore it is believed no fee is due. However, in the event that there is any fee due or overpayment credited, the Commissioner is hereby authorized to charge fees and credit overpayment to Deposit Account No. 18-0586.
